

# 2022

## 17th CDC International Symposium on Biosafety **Beyond the Pandemic:** Building on the Lessons Learned

August 27-31, 2022 | Crowne Plaza Ravinia | Atlanta, GA

### KEYNOTE:

#### Evidence, Experience, Expertise: Lessons from the US Coronavirus Disease Public Health Response

As Incident Manager, Dr. Henry Walke has led the CDC response to COVID-19. Dr. Walke will discuss critical areas of focus that include clinical sequelae of infections, testing, interactions with other infectious diseases, transmission dynamics, and considerations for disproportionately affected persons. This information has been critical for decisions and messaging about who is at most risk and how best to protect them.

Henry Walke,  
MD, MPH,  
Director  
Center for  
Preparedness  
and Response,  
CDC

### SPECIAL PRESENTATIONS:

#### The Future of Work: The Role of Artificial Intelligence in Biosafety

Jay Vietas, PhD, MS, CIH, CSP, National Institute  
for Occupational Safety and Health, CDC

#### Challenges of Communicating in a Climate of Disinformation

LouAnn Burnett, MS, CBSP, Sandia National  
Laboratories

Nicole Murchison, PhD, Sandia National  
Laboratories

#### Pathogens of the Future...Are We Ready?

Timothy Uyeki, MD, Influenza Division, National  
Center for Immunization and Respiratory Diseases,  
CDC

Zachary Weiner, PhD, Bacterial Special Pathogens  
Branch, CDC

Christina Hutson, MS, Pox Virus and Rabies  
Branch, CDC

Ann Powers, PhD, Vector-Borne Diseases Division,  
CDC

### SESSIONS:

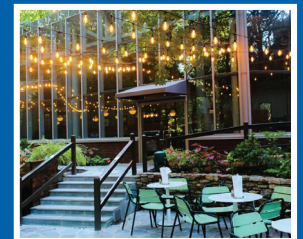

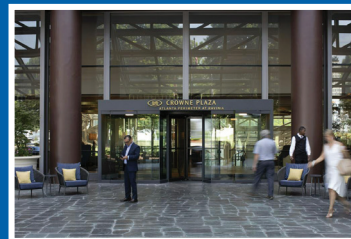

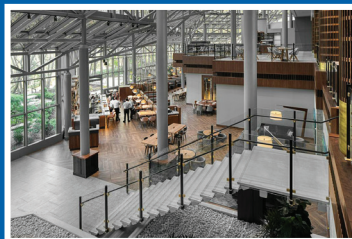

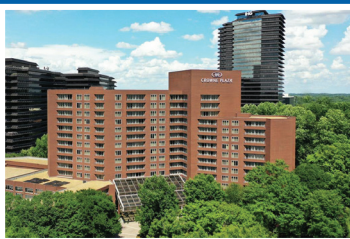

The Changed Workplace

Science and Risk Assessment

Transformation of Training

Preparedness Planning

**Crowne Plaza Ravinia • 4355 Ashford Dunwoody Road, Atlanta, GA**
